

COVID-19 Telehealth Visits

We're here for you with telehealth visits!

For an appointment call 724.891.2100

When you call to schedule an appointment:

- We'll review your insurance records and set a time for the call.
- Allow a 30-minute window before and after your scheduled time for us to call. This is because some patients take more or less time with the provider.
- You'll need to give us a phone number to reach you. You can choose cell, landline or doxy.me for a face-to-face visit.
- For virtual visits, please ensure you're using Google Chrome, Firefox, or Safari on your device and make sure you're ready when we call.

As a reminder, your telehealth visit will be billed through your insurance company. Call us to schedule or with any questions.
